

Sub C3
Contd
A

a first light source disposed on a mount having a mount surface and directing light generally along a first axis;

a reflective image display unit disposed on the mount surface with an optical axis substantially parallel to the first axis; and

a reflective polarizing film disposed to direct light from the first light source to the reflective image light display unit.

A2

6. (amended) A device as recited in claim 2, wherein a first portion of the reflective polarizing film is displaced from the first light source along the first axis and a second portion of the reflective polarizing film is displaced from the reflective image display unit along the optical axis.

Sub C3

Kindly add new claims 36-38 as follows. *2*

36. (new) A device as recited in claim 1, wherein the first light source and the reflective image display are disposed on the mount surface in a coplanar manner.

A3

37. (new) A device as recited in claim 1, wherein the mount is a substrate common to the first light source and the reflective image display.

38. (new) A device as recited in claim 1, wherein the first light source and reflective image display are mounted side by side on the mount surface.

REMARKS

Claims 1-9, 12-16, and 36-38 are under consideration in the pending in the patent application. Claims 10, 11 and 17-35 have been withdrawn from consideration.

Claims 1 and 6 have been amended. New claims 36-38 are added. No new matter has been added.

Applicants confirm the election of Group I, claims 2-9 and 12-16, made provisionally during a telephone conversation between Ms. Cassandra Spyrou and the below-signed attorney on October 5, 2001.
